

Introducing Sewall GeoPower™

Douglas Schuetz, Rockland County's Director of GIS says...

The GeoPower Portal "allows us to better serve our residents by providing them direct access to a wealth of information whenever they want it.

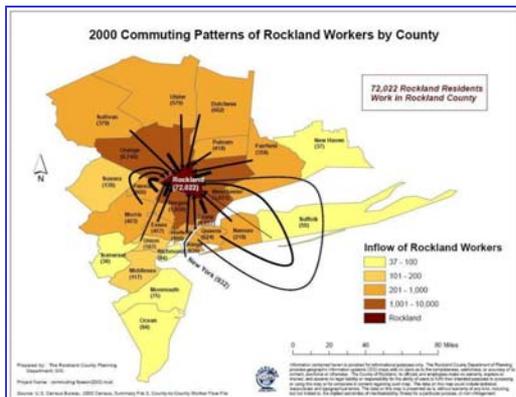

We expect to reap great benefits from the standardization, centralization, and flexibility of the new platform, including cost savings for the county, improvements in process efficiencies, and a wider variety of services to the community."

Introducing Sewall GeoPower

This Webinar will demonstrate how GeoPower...

- Enhances services for different audiences
- Supports your applications
- Provides use for your existing data
- Provides browser based self service
- Cuts operational costs
- Frees staff for true public service

Map Details			
Map Title	Caption	Date	Size (KB)
County Regulated Stream Map	This map shows all water features within the County (34"x44")	2008-09-30	12,173
County Wetlands Map	This map shows the New York State & Federal Wetland for the entire county. (34"x44")	2008-09-30	14,465
Soils Map	This Map Illustrates Soil Classes, Texture & Drainage within the County (44"x34")	2008-10-20	4,417
Town of Clarkstown County Regulated Streams	Map shows County Regulated Streams and other Water Bodies, Municipal Boundaries, Parks and Roads (34"x44")	2008-09-24	9,234
Town of Haverstraw County Regulated Streams	Map shows County Regulated Streams and other Water Bodies, Municipal Boundaries, Parks and Roads (34"x44")	2008-09-24	8,047
Town of Orangetown County Regulated Streams	Map shows County Regulated Streams and other Water Bodies, Municipal Boundaries, Parks and Roads (34"x44")	2008-09-24	6,547
Town of Ramapo County Regulated Streams	Map shows County Regulated Streams and other Water Bodies, Municipal Boundaries, Parks and Roads (34"x44")	2008-09-24	14,727
Town of Stony Point County Regulated Streams	Map shows County Regulated Streams and other Water Bodies, Municipal Boundaries, Parks and Roads (34"x44")	2008-09-24	2,262

GeoPower™ is...

A web based system for secure information management & sharing

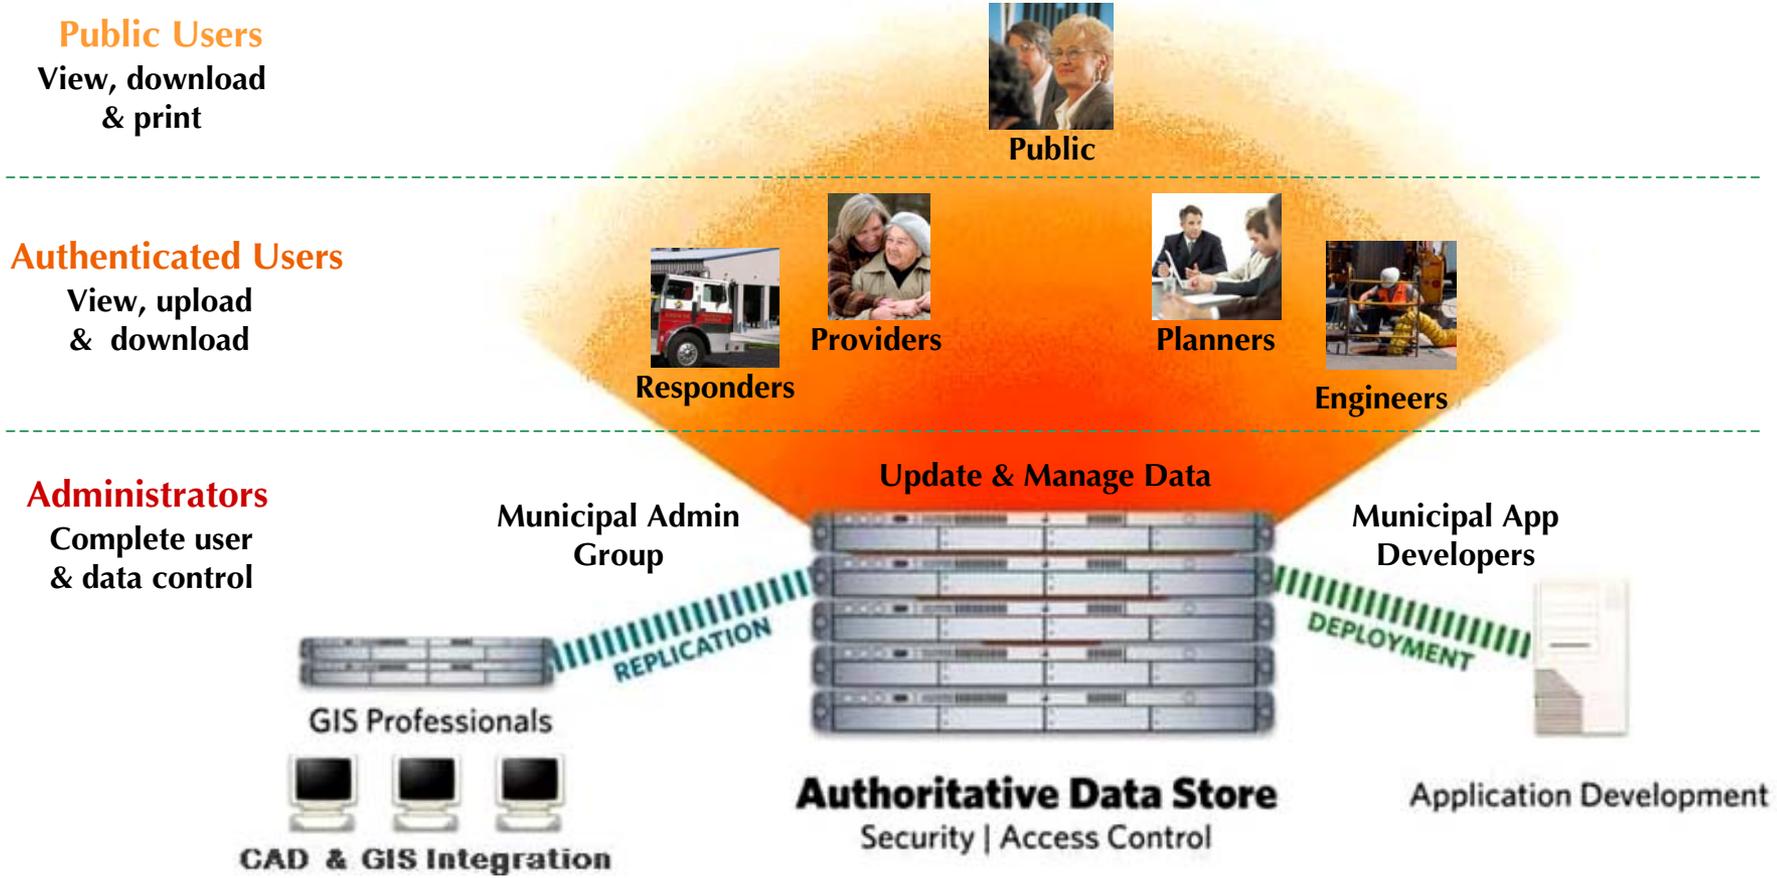

The image displays several screenshots of the Sewall GeoPower GIS Portal interface. The main window shows a map of Rockland County, NY, with various layers and a search bar. The search bar contains the text "18 New Hempstead". The map shows various geographical features and boundaries. To the right of the map, there is a "Data" table with the following columns: Category, Format, Projection, Source, Date, and Size. The table contains several rows of data, including "Election", "Environment", "Recreation", and "Roads". Below the map, there is a "Login" form with fields for "Username:" and "Password:", and a "Login" button. To the right of the login form, there is an "Upload Geodata Package" form with fields for "File", "Description", "Theme", "Format", "Source", "Effective Date", "Access Type", "Extent", "Projection", and "Created Date".
