### **Forestry Consultant Tim Mack Rejoins Sewall in Lake States**

(Old Town, Maine--10 February 2006) Tim Mack has rejoined James W. Sewall Company to anchor the firm's new office in International Falls, Minnesota. During 2004-2005, Mr. Mack worked as a forest biometrician at Sewall headquarters in Old Town, Maine, and since May has been involved in several large inventory and due diligence projects for Sewall in Pennsylvania and Ontario. Now as forest biometrician/resource analyst, he will focus on forest inventory and modeling, resource studies, appraisal, and due diligence consulting.

With a BS in Forest Resources and MS in Forestry from the University of Minnesota, Mr. Mack brings 15 years' experience in the industry, working as a forest planner for Boise Cascade in the Lake States and as an inventory and analysis forester for MeadWestvaco in New England. He has also provided forestry consulting services to Boise, assisting the company with land disposition efforts in the Lakes States and the West.

"We are delighted to have Tim back full-time," says Sewall Vice President of Forestry and Natural Resources Bret Vicary, Ph.D./MAI/CGA/LPF. "His experience spans every timber region of the US and much of Canada. We have been doing an increasing amount of work in the Midwest, and Tim has proven to be an extremely competent consultant."

Mr. Mack looks forward to assisting Sewall in "extending its forestry consulting services. With increasing turnover in land ownership, more investors are seeking sophisticated help in analyzing opportunities. The conservation community is playing a role also. A growing clientele is focusing on non-timber outputs like recreation and ecosystem services."

The oldest forestry consulting firm in North America, Sewall provides a broad range of consulting services to private, institutional, ENGO, and public sectors, including natural resource appraisal, forest inventory, forest modeling, resource studies, investment analysis, forest management auditing, GIS/mapping, and aerial photography. With offices in Maine, North Carolina, Alabama, and Minnesota, Sewall serves clients throughout North America, Hawaii, South America, Australia, and New Zealand. For more information, please contact Bret Vicary at (207) 827-4456, Email: [bret@jws.com](mailto:bret@jws.com); Tim Mack at (218) 331-2568, Email: [tim.mack@jws.com](mailto:tim.mack@jws.com); or visit the web site at [www.jws.com](http://www.jws.com)
